DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

This 2½ story painted brick sloped roof house is located in midblock. It is the right unit of a pair of houses each having 2 bays.

The first floor shopfront consists of 2 wood doors (each with a lower "x" panel and upper panel of 9 panes of glass) on either side of a plate glass window. The doors have stock fluted pilasters trim and painted flat panels above, the one to the right includes an air conditioner. A fascia with molding and dentil trim tops the shopfront. The remaining wall surface is of unpainted brick.

There are 2-6-over-6 double hung windows with wood sills on the second floor. The attic floor of this house and 885 N. Howard Street is defined by a continuous band of low relief brickwork which stops just short of the right edge of this house and the left edge of the other house. It is further ornamented by two relief courses at the lower edge. There are 2 eyebrow windows, one to the left with an air conditioner, the one to the right having a pair of single pane casements. A row of brick dentils forms a simple cornice. There are 2 tall chimneys topped by pointed arches.
